

Our vision: **'Let your light shine'** based on Matthew 5.16

18th December 2020

Dear Parents,

Well we made it! Almost at the end of 2020 – and what a year!

I know how much everyone is looking forward to a break over Christmas and I sincerely hope that all families manage to make the most of this lovely time of year, the best they can.

We've had a wonderful last week in school, lots of parties, dancing and singing. It has been an absolute pleasure to see the children smiling and laughing and having a wonderful time.

As we move into 2021 with the continuing risk of Covid, we can however, begin to look to the future as we have sight of the vaccine; but until we are free from this horrible situation, let's keep everyone safe and well .

All that remains to wish all of our Egglecliffe families a MERRY CHRISTMAS & BEST WISHES FOR A HEALTHY & SAFE 2021 from both myself and all of the staff team.

Kind regards,

Mrs Gates

Special Christmas Delivery

Today, we have been out delivering our hand made Christmas cards to our neighbours who live in the areas surrounding our school.

We wished them a **Merry Christmas**. This also gave the children a chance to say sorry for all of the *footballs* that have been kicked into their gardens over the last year!

They really appreciated our socially distanced visit. It was lovely to meet them and make new friends.

Children enjoyed their Christmas Parties this week.

Please log onto our school website to view some photos of ‘**Christmas Week in our School**’.

<https://egglescliffeprimary.greenhousecms.co.uk>

The children loved their Christmas gift from Santa. A number of children came to staff the following day to say thank you and to say how much they’d enjoyed their parties.

A quote from a child in KS2....

“This is the best day ever... I don’t want it to end!”
